

ULTRASOUND PROBE POSITIONING IMMERSION SHELL

PARTS LIST

10	ultrasound probe positioning immersion shell	66	tapered intermediate body guides
12	upper cylindrical body	68a-b	upper guide edge
14	lower cylindrical body	70b	arcuate guide edge
16	external guide ring	70c	lower guide edge
18a-n	guide surfaces	71a	upper guide edge
20	central axis	71b	arcuate guide edge
22a-n	external vents	71c	lower guide edge
24	lip	72	ultrasound probe central axis
26	fluid transfer port	74	keeper tab
28	upper chamber	76a	arcuate surface
30	internal guide ring	78	lip
32	tapered region	80	fluid transfer port
34a-n	guide surfaces	82	upper chamber
36a-n	internal vents	84	slot
38	lower chamber	86	vent
40	threaded hole	88	lower chamber
42	threaded fastening device	90	keeper arm
44	ultrasound probe	92	lower constant radius body
46	constant radius body region	94	region
48	tapered body region	96	arcuate annular region
50	transducer	98	annulus
52	eye	100	annular groove
54	cornea	102	annulus
56	Luer fitting		upper constant radius body
58	saline solution		region
60	ultrasound probe positioning immersion shell	104	transducer
62	upper cylindrical body	106	cable housing
64	lower cylindrical body	108	passageway
		110	eye
		112	cornea
		114	filler tube
